

# TEST REPORT

Product: Semiconductor Etching Solution  
Manufacturer: ChipProcess Materials  
Document ID: doc-15

## Section 3: Composition / Information on Ingredients

| Component          | Substance                                   | CAS Number | Concentration |
|--------------------|---------------------------------------------|------------|---------------|
| Etch Residue Rinse | Hexafluoropropylene oxide dimer acid (GenX) | 13252-13-6 | 300 ppb       |

*This document is a synthetic test fixture generated for the SubstanceGuard project and does not represent a real supplier declaration.*
